Under the centrally sponsored scheme of Non-Formal Education, central assistance provided for girls' centres is 90% as compared to 60% for co-education centres. The proportion of girls, centres has been increased from 25% to 40% in the Eighth Plan.

The introduction of Mid-day Meal Scheme in 1995-96 is also expected to have a positive effect on enrolment and retention of girls in primary schools.

Internationally assisted projects for universalisation of elementary education have specific components for promotion of girls education.

The efforts made in this direction have resulted in narrowing of the gender gap in drop out rates in class I-V.
